

I Product: ALCAVIS 50	
Description: CLEAR, LIGHT YELLOW LIQUID WITH SLIGHT CHLORINE ODOR	
Composition	Manufacturer
Sodium Hypochlorite 0.55%	ACRAF S.p.A.
Sodium Chloride 9%	Via Pontasso 13
Excipients	16015 Genoa
Depurated water q.s. to 100ml	ITALY
Emergency Telephone No.	
Alcavis HDC, LLC	
8322 Helgerman Court	
Gaithersburg, MD 20877 USA	
Phone: 301-330-7597 Fax: 301-330-6432	
II Health Hazard Data	IV Special Protection and Precautions
<p>Contact with eyes may cause temporary discomfort, but no permanent injury. Contact with skin causes no adverse effects. Ingestion of the product can cause hiccups and distension due to the release of chlorine gas. There are no inhalation exposure problems and no reported adverse effects due to acute exposure. There is no chemical similarity with known carcinogens or mutagens. No reported effects following more than 50 years of clinical use and application. When following the recommended usage instructions, the likelihood of any adverse health effects are low.</p> <p>FIRST AID: EYE CONTACT: Immediately flush eyes with plenty of water. If irritation persists, seek medical attention. INGESTION: If swallowed, drink large quantities of milk or gelatin solution. If these are not available, drink large quantities of water and call a physician. Do not give vinegar or other acids. Do not induce vomiting. Antidote: Sodium thiosulphate; gastric lavage. INHALATION: If breathing problems occur seek fresh air immediately.</p>	<p>No special protection is needed under normal consumer use conditions.</p> <p>Do not mix with acidic substances, it may release hazardous gases. Store in a cool dry area, away from direct sunlight and heat.</p>
	V Spill or Leak Procedures
	In case of spills, flush area with water. The product should be diluted with water before disposal in sanitary sewer.
	VI Fire and Explosion Data
	Not flammable or explosive. When poured on fire behaves as water. In a fire, cool containers to prevent rupture and release of sodium hypochlorite.
	VII Reactivity Data
	Stable under normal use and storage conditions. Strong oxidizing agent. Reacts with other household chemicals such as toilet bowl cleaners, rust removers, vinegar, acids or ammonia containing products to produce hazardous gases, such as chlorine and other chlorinated species. In case of chemical contamination of the product do not reseal container. High temperature and direct sunlight may cause swelling of the container. Stable for 30 months.
III Hazardous Ingredients	VIII Physical Data
<p>Available chlorine* 0.55%</p> <p>CAS No. 7782 - 50 - 5</p> <p>* Available chlorine is composed of hypochlorite ion (OCl⁻) and hypochlorous acid (HOCl).</p> <p>None of the ingredients are classified as hazardous ingredients.</p>	<p>Boiling point 100° - 104°C</p> <p>Freezing point 0° / -12° C</p> <p>Specific gravity (H₂O=1) 1.060 - 1.090</p> <p>Solubility in Water complete</p> <p>pH 10</p> <p>Form Liquid</p> <p>Color Slightly yellow</p> <p>Odor Slightly of chlorine</p>
LD50 Oral-rat: 52.8 ml/kg	IX Disposal Considerations
X Preparation Information	Disposal of the product must be in compliance with the local laws about Active Chlorine and Chlorides in the sinks and sewers. Not dangerous for the environment. Completely biodegradable.
